II. HAZARD(S) IDENTIFICATION

Classification of the che GHS Hazard Symbols:	emical in accordance with paragraph (d) of §1910.1200;
GHS Classification: GHS Signal Word:	Serious Eye Damage/Eye Irritation Category 2A Warning
GHS Hazard GHS Precautions:	Causes serious eye irritation.
Safety Precautions:	Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures (Response):	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

III. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS #	%
Benzenemethanol	100-51-6	5 - 10
Benzaldehyde, 3-ethoxy-4-hydroxy-	121-32-4	1 - 5
4H-Pyran-4-one, 2-ethyl-3-hydroxy-	4940-11-8	1 - 5
BROWN SUGAR		Page 1 of 5

Benzaldehyde, 4-hydroxy-3-methoxy 1,3-Benzodioxole-5-carboxaldehyde

121-33-5 120-57-0 Revision Date: 09-11-20 0.5 - 1.5 0.1 - 1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

IV. FIRST-AID MEASURES Inhalation: This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure. Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt Eyes: the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention. Skin Contact: Wash with soap and water. No hazard in normal industrial use. Do not induce vomiting. Seek medical attention Ingestion: if symptoms develop. Provide medical care provider with this MSDS. Most important symptoms and effects -No Data Available acute Most important symptoms and effects -No Data Available chronic Notes to Doctor: No additional first aid information available **V. FIRE FIGHTING MEASURES** Flammability Summary: Combustible at elevated temperatures Use alcohol resistant foam, carbon dioxide, or dry chemical when **Extinguishing Media:** fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid. No Data Available Extinguishing Media advised against: Fire and/or Explosion Hazards: Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire. Combustible Liquid. Can form explosive mixtures at temperatures at or above the flash point. Empty containers that retain product residue (liquid, solid/sludge, or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Any of these actions can potentially cause an explosion that may lead to injury or death. Do not enter fire area without proper protection including self-Fire Fighting Methods and Protection: contained breathing apparatus and full protective equipment. Hazardous Combustion Products: Carbon Oxides **VI. ACCIDENTAL RELEASE MEASURES Personal Precautions and Equipment:** No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this MSDS **BROWN SUGAR** Page 2 of 5

Revision Date: 09-11-20

Methods for Clean-up:

No special spill clean-up considerations. Collect and discard in regular trash.

VII. HANDLING AND STORAGE

Handling Technical Measur Storage Technical Measure Materials to Avoid/Chemic	es and Conditions: Store in a cool dry place. Isolate from incompatible materials.		
VIII. EXPOSURE CONTROLS/F	PERSONAL PROTECTION		
	No exposure limits exist for the constituents of this product. No engineering controls are likely to be required to maintain operator comfort under normal conditions of use.		
Skin Protection:	No respiratory protection required under normal conditions of use. Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification:	Hazardous to the aquatic environment - Acute Category 1; Serious Eye Damage/Eye Irritation Category 2A; Hazardous to the aquatic environment - Chronic Category 2; Acute Toxicity - Oral Category 4
GHS Signal Word:	Warning
GHS Hazard Statements:	Harmful if swallowed.; May cause an allergic skin reaction.; Causes serious eye irritation.; Very toxic to aquatic life.; Toxic to aquatic life with long lasting effects.
GHS Precautionary Statements:	
Safety Precautions:	Wash thoroughly after handling. Do no eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.

First Aid Measures:	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. IF
	ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with
	water for several minutes. Remove contact lenses, if present and easy to do.
	Continue rinsing. Rinse mouth. If skin irritation or rash occurs: Get medical
	advice/attention. If eye irritation persists: Get medical advice/attention. Wash
	contaminated clothing before reuse. Collect spillage.
Disposal:	Dispose of contents/container in accordance with
	local/regional/national/international regulation for hazardous wastes.

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
Benzoic acid, phenylmethyl ester	120-51-4	60 - 99
Benzaldehyde, 4-hydroxy-3-methoxy	121-33-5	10 - 30
4H-Pyran-4-one, 2-ethyl-3-hydroxy-	4940-11-8	1 - 5
2H-1-Benzopyran-2-one	91-64-5	1 - 5
2,3-pentanedione	600-14-6	0.1 - 1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Eye Contact:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.		
Skin Contact:	Wash with soap and water.		
Inhalation: Ingestion:	This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure. No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.		
Most important symptoms/effects, acute and delayed:			
Most important symptoms/effects (Acute):	No Data Available		
Most important symptoms/effects (Delayed):	No Data Available		

Indication of immediate Coconut Cream Pie No additional first aid information available

medical attention and special treatment needed, if necessary:

5. Fire-fighting measures		
Suitable (and unsuitable) extinguishing media:		
Suitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid.	
Unsuitable extinguishing media:	No Data Available	
Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products):		
Flammability Summary:	Combustible at elevated temperatures	
Fire and/or Explosion Hazards: Hazardous Combustion Products:	Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire. Carbon Oxides	
Special protective equipment and precautions for fire- fighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment.	

6. Accidental release measures

7. Handling and storage

Precautions for safe handling: Mildly irritating material. Avoid unnecessary exposure.

Conditions for safe storage, including any incompatibilities

Conditions for safe storage:	Store in a cool dry place. Isolate from incompatible materials.
Materials to Avoid/Chemical	Strong oxidizing agents Strong bases Strong acids
Incompatibility:	

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

Chemical Component	ACGIH TLV-TWA	ACGIH STEL	OSHA PEL
No Data Available			
Appropriate engineering controls:	engineering controls a	No exposure limits exist for the constituents of this product. No engineering controls are likely to be required to maintain operator comfort under normal conditions of use.	
Individual protection measures	, such as personal protecti	ve equipment:	
Respiratory Protection: Eye Protection: Skin Protection: Gloves:	No respiratory protection required under normal conditions of use. No special requirements under normal industrial use. Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. No information available		
Respiratory Protection:		ion required under norm	al conditions of use.

IX. PHYSICAL AND CHEMICAL PROPERTIES

No Data Available

Physical State:	Liquid
Color:	Clear
Odor:	Comparable to Standard
Odor Threshold:	ND
pH:	Not Available
Melting Point/Freezing Point:	63 - 68 º F
Initial Boiling Point:	545 º F
Flash Point:	> 200 º F
Evaporation Rate:	Not Available
Flammability (Solid, Gas):	No Data Available
Upper Flammable/Explosive Limit:	Not Available
Lower Flammable/Explosive Limit:	Not Available
Vapor Density:	>1
Relative Density (Specific Gravity):	1.1077
Solubility in Water:	Soluble in water- No
Octanol/Water Partition Coefficient:	4
Auto-ignition Temperature:	481 º C
Decomposition Temperature:	324
Volatiles, % by weight:	3.77
Bulk Density:	9.246

X. STABILITY AND REACTIVITY

Reactivity:	No Data Available
Chemical Stability:	Stable under normal conditions.
Possibility of Hazardous Reactions:	No Data Available
Conditions to Avoid:	Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other

CHOCOLATE MINT

sources of ignition. Heat flame sparks

Revision Date: 09-11-20

Materials to Avoid/Chemical Incompatibility: Hazardous Decomposition Products:		Strong oxidizing agents Strong bases Carbon Oxides	
XI. TOXICOLOGICAL IN	FORMATION		
Most Important Symptoms:	No Data Available		
Chemical Interactions	That Change Toxicity:	None Known	
Immediate (Acute) Hea Long-Term (Chronic)	Ith Effects by Route of Expo Health Effects:	isure:	
Carcinogenicity:		substances have been shown to cause cancer in long term animal	
Reproductive toxicit	y: No data ava	t a carcinogen according to NTP, IARC, or OSHA. A pilable to indicate product or any components present at greater than ause birth defects.	

Germ cell mutagenicity: No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.

Component Toxicology Data:

Chemical Name	CAS Number	LD50/LC50
No data available		

Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No Data Available			

XII. ECOLOGICAL INFORMATION

Overview:	This material is not e	expected to be harmfu	Il to the ecology.

No Data Available		CIUSIALEA	Ацуае		
XIII. DISPOSAL CONSIDERAT	TIONS				

Waste Description for Spent Product:	
Waste Description for Empty	
Packaging:	

Spent or discarded material is not expected to be a hazardous waste. No Data Available

CHOCOLATE MINT

Revision Date: 09-11-20 **Disposal Methods:** DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the sole responsibility of the waste generator. As your supplier, we have no control over the management practices or manufacturing processes of parties handling or using this material. The information presented here pertains only to the product when used as intended, according to this MSDS. For unused and uncontaminated product, the preferred options include sending to a licensed and permitted incinerator or other thermal destruction device. Various federal, state or provincial agencies may have specific regulations concerning the transportation, handling, storage, use or disposal of this product which may not be covered in this MSDS. The user shall have to review these regulations to ensure full compliance with all applicable regulations. XIV. TRANSPORTATION INFORMATION **US DOT Ground Shipping Description:** Not Restricted IATA Shipping Description: Not Restricted IMDG Shipping Description: Not Restricted XV. REGULATORY INFORMATION TSCA Status All components in this product are on the TSCA Inventory. **California Prop 65** Does not contain any chemicals listed on California Proposition 65. CAS # **Chemical Name** Regulation % Range No 313-listed chemicals in this product **SARA 313 XVI. OTHER INFORMATION Revision Date:** 09-11-2020 Disclaimer: Important: While the descriptions, data and information contained herein are presented in good faith and believed to be accurate, it is provided for your guidance only. Because many factors may affect processing or application/use, we recommend that you perform an assessment to determine the suitability of the product for your particular purpose prior to use. Nothing herein should be interpreted as a recommendation to infringe existing patents or violate any laws or regulations. No warranties of any kind, either expressed or implied, including fitness for a particular purpose are made regarding the product described. We assume NO responsibility for any injuries resulting from misuse or misapplication of this product or that might be sustained because of inhalation, ingestion, absorption or other contact with this product. In no case shall the descriptions, information, or data provided be considered a part of our terms and conditions of sale. Further, the descriptions, data and information furnished hereunder are given gratis. No obligation or liability for the description, data and information given are assumed. All such being given and accepted at your risk.

I. IDENTIFICATION

Product identification used on label	
Product Name:	Coffee Cake #2
Product Identifier:	FR10COF
Recommended Use of the	Fragrance
Chemical and restrictions on use:	

	CONTROL CENTER AT 1-800-222-1222
	IF SWALLOWED CALL YOUR POISON
Number:	INFORMATION PHONE: (888) 614-2112

II. HAZARD(S) IDENTIFICATION

GHS Hazard Symbols:	
GHS Classification:	Aspiration Hazard Category 1; Skin Corrosion/Irritation Category 1; Serious Eye Damage/Eye Irritation Category 2A; Hazardous to the aquatic environment - Acute Category 2
GHS Signal Word:	Danger
GHS Hazard	May cause skin irritation.; May cause an allergic skin reaction.; Causes serious eye irritation.; Toxic to aquatic life
GHS Precautions:	
Safety Precautions:	Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures	IF SWALLOWED: Immediately call a POISON CENTER/doctor/ IF ON SKIN: Wash with plenty of soap
(Response):	and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Do NOT induce vomiting. If skin irritation occurs: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.
Storage:	Store locked up.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

III. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS #	%
Hexanedioic acid, 1,6-bis(2-ethylhexyl) ester	103-23-1	30 - 60
2-Propenal, 3-phenyl-	104-55-2	10 - 30
2(3H)-Furanone, dihydro-5-pentyl-	104-61-0	5 - 10
Benzaldehyde, 4-hydroxy-3-methoxy	121-33-5	5 - 10
1,3-Benzodioxole-5-carboxaldehyde	120-57-0	1 - 5
2-Propen-1-ol, 3-phenyl-, 1-acetate	103-54-8	1 - 5
4H-Pyran-4-one, 2-ethyl-3-hydroxy-	4940-11-8	0.5 - 1.5
2-Propen-1-ol, 3-phenyl-	104-54-1	0.1 - 1
Benzene carboxaldehyde	100-52-7	0.1 - 1
2-Butanone, 4-phenyl-	2550-26-7	0.01 - 0.1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

IV. FIRST-AID MEASURES

Inhalation:	This material does not present a hazard if inhaled. Remove individual to fresh air
after an airborne exposure if a	ny symptoms develop, as a precautionary measure.
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt
the head to prevent chemical f	rom transferring to the uncontaminated eye. Get
immediate medical attention.	
Skin Contact:	Wash with soap and water.
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention
if symptoms develop. Provide	nedical care provider with this MSDS.

chronic				
Notes to Doctor: No ad	ditional first aid information available			
V. FIRE FIGHTING MEASURES				
Extinguishing Media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid.			
Extinguishing Media advised against:No Data AvailableFire and/or Explosion Hazards:Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire.				
Fire Fighting Methods and Protection: Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Use methods for the surrounding fire. Hazardous Combustion Products: Carbon Oxides VI. ACCIDENTAL RELEASE MEASURES				
Personal Precautions and Equipme	contact can be avoided. Follow personal protective equipment			
recommendations found in Section VIII of this MSDS Methods for Clean-up: No special spill clean-up considerations. Collect and discard in regular trash.				
VII. HANDLING AND STORAGE				
Handling Technical Measures and I Storage Technical Measures and Co Materials to Avoid/Chemical Incon VIII. EXPOSURE CONTROLS/PERSON	onditions:Store in a cool dry place. Isolate from incompatible materials.opatibility:Strong oxidizing agents Strong bases			
Engineering Measures: No expo	osure limits exist for the constituents of this product. No engineering controls			

Revision Date: 08-18-20

Respiratory Protection: Skin Protection:	No respiratory protection required under normal conditions of use. Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.			
Gloves:	No information available			
Control Parameters: Chemical Name	ACGIH TLV-TWA	ACGIH STEL	OSHA PEL

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Classification:	Hazardous to the aquatic environment - Acute Category 3; Hazardous to the
	aquatic environment - Chronic Category 3
GHS Signal Word:	Warning
GHS Hazard Statements:	May cause an allergic skin reaction.; Harmful to aquatic life.; Harmful to aquatic life with long lasting effects.
GHS Precautionary Statements:	
Safety Precautions:	Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures:	IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Disposal:	Dispose of contents/container in accordance with

COTTON CANDY

local/regional/national/international regulation for hazardous wastes.

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
4H-Pyran-4-one, 2-ethyl-3-hydroxy-	4940-11-8	3 - 7
Ethyl methylphenylglycidate	77-83-8	1 - 5
Benzaldehyde, 3-ethoxy-4-hydroxy-	121-32-4	1 - 5
1,3-Benzodioxole-5-carboxaldehyde	120-57-0	1 - 5

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Eye Contact:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.
Skin Contact:	Wash with soap and water.
Inhalation:	This material does not present a hazard if inhaled. Remove
	individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure.
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.
Most important symptoms/effec	ts, acute and delayed:
Most important symptoms/effects (Acute):	No Data Available
Most important symptoms/effects (Delayed):	No Data Available
Indication of immediate medical attention and special treatment needed, if necessary:	No additional first aid information available

5. Fire-fighting measures

Suitable (and unsuitable) extinguishing media:

Product Name: COTTON CANDY Product identifier: FRCTT Revision Date: 06-01-2020 Replaces:

ļ

replaces.	
Suitable extinguishing media: Unsuitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid. No Data Available
Specific hazards arising from the o	chemical (e.g., nature of any hazardous combustion products):
Fire and/or Explosion Hazards: Hazardous Combustion Products:	Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire. Carbon Oxides
Special protective equipment and precautions for fire- fighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Use methods for the surrounding fire.
6. Accidental release measures	
Personal precautions, protective equipment, and emergency procedures: Methods and materials for containment and cleaning up:	No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this MSDS No special spill clean-up considerations. Collect and discard in regular trash.
7. Handling and storage	
Precautions for safe handling: Conditions for safe storage, inclue	Mildly irritating material. Avoid unnecessary exposure. ding any incompatibilities
Conditions for safe storage: Materials to Avoid/Chemical Incompatibility:	Store in a cool dry place. Isolate from incompatible materials. Strong oxidizing agents Strong bases

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

Chemical Component	ACGIH TLV-TWA	ACGIH STEL	OSHA PEL

Individual protection measures, such as personal protective equipment:

Respiratory Protection: Eye Protection: Skin Protection:	No respiratory protection required under normal conditions of use. No special requirements under normal industrial use. Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work
Gloves:	and when leaving work. No information available
Respiratory Protection:	No respiratory protection required under normal conditions of use.

9. Physical and chemical properties

Appearance (physical state, color, etc.):	
Appearance (physical state):	Liquid
Color:	Very pale yellow
Odor:	Comparable to Standard
Odor threshold:	Not determined
pH:	Not Available
Initial Boiling Point and Boiling Range (°C):	No Data Available
Flash Point :	> 200 º F
Evaporation Rate:	Not Available
Flammability (solid, gas):	No Data Available
Upper/lower flammability or explosive limits	:
Upper Flammable/Explosive Limit:	Not Available
Lower Flammable/Explosive Limit:	Not Available
Vapor Density:	> 1
Relative Density:	.9563
Solubility(ies):	Soluble in water- No
Decomposition Temperature::	No Data Available
Viscosity:	No Data Available
Volatiles, % by weight	0.5
Volatile Organic Chemicals	No Data Available
Bulk Density	7.978

10. Stability and reactivity

Reactivity: Chemical stability: Possibility of hazardous reactions:	No Data Available Stable under normal conditions. No Data Available
Conditions to avoid (e.g., static discharge, shock, or vibration):	Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition. Avoid moisture Heat flame sparks.

	1910.134 and ANSI Z88.2 requirements whenever work place
	conditions warrant the use of a respirator. Respiratory protection
	may be required in addition to ventilation depending upon conditions of use.
Other Protective Equipment:	Wear goggles and a Face shield Where contact is likely, wear
	chemical resistant gloves, a chemical suit, rubber boots, and
	chemical safety goggles plus a face shield
General Hygiene Conditions:	As with all chemicals, good industrial hygiene practices should be
	followed when handling this material. Avoid contact with material,
	avoid breathing dusts or fumes, use only in a well ventilated area.
	Wash thoroughly after handling Do not get in eyes, on skin and
	clothing Use spark-proof tools and explosion-proof equipment
	Ground and bond containers when transferring material "Empty"
	containers retain product residue (liquid and/or vapor) and can be
	dangerous.

9. Physical and chemical properties

Appearance (physical state, color, etc.):	
Appearance (physical state):	Liquid
Color:	Very pale yellow
Odor:	Comparable to Standard
Odor threshold:	Not determined
pH:	Not Available
Initial Boiling Point and Boiling Range (°C):	No Data Available
Flash Point :	200 º F
Evaporation Rate:	Not Available
Flammability (solid, gas):	No Data Available
Upper/lower flammability or explosive limits	:
Upper Flammable/Explosive Limit:	Not Available
Lower Flammable/Explosive Limit:	Not Available
Vapor Density:	>1
Relative Density:	0.9179
Solubility(ies):	Soluble in water- No
Decomposition Temperature::	No Data Available
Viscosity:	No Data Available

11. Toxicological information

Information on the likely routes of exposure (inhalation,	No Data Available
ingestion, skin and eye contact):	
Symptoms related to the	No Data Available
physical, chemical and	
toxicological characteristics:	
Target Organs Potentially	No Data Available
Affected by Exposure:	
Chemical Interactions That	None Known
Change Toxicity:	

Delayed and immediate effects and also chronic effects from short- and long-term exposure:

Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation:	Can cause respiratory irritation.
Skin Contact:	Can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause permanent damage. May cause sensitization.
:	Minimal hazard in normal industrial use. May cause gastrointestinal discomfort
Eye Contact:	Can cause moderate irritation, tearing and reddening, but not likely to permanently injure eye tissue.
Ingestion Irritation:	Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea, vomiting and diarrhea.
Ingestion Toxicity:	Harmful if swallowed.

Long-Term (Chronic) Health Effects:

Carcinogenicity:	None of the substances have been shown to cause cancer in long term animal studies. Not a carcinogen according to NTP, IARC, or OSHA.
Reproductive and	No data available to indicate product or any components present at greater than
Developmental Toxicity:	0.1% may cause birth defects.
Mutagenicity:	No data available to indicate product or any components present at greater than

ORANGESICLE

	0.1% is mutagenic or genotoxic.
Inhalation:	Upon prolonged and/or repeated exposure, can cause moderate respiratory
	irritation, dizziness, weakness, fatigue, nausea and headache.
Skin Contact:	Upon prolonged or repeated contact, can cause moderate skin irritation, defatting,
	and dermatitis. Not likely to cause permanent damage.
Skin Absorption:	Upon prolonged or repeated exposure, minimal hazard in normal industrial use.
	May cause gastrointestinal discomfort.

IV. FIRST-AID MEASURES

Inhalation:	This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure.
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.
Skin Contact:	Wash with soap and water.
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.

propen-1-yl-		
Oils, eucalyptus	8000-48-4	0.5 - 1.5
Benzene, 1,1"-	103-50-4	0.1 - 1
[oxybis(methylene)]bis-		
Bicyclo[3.1.1]hept-2-ene, 2,6,6- trimethyl-, (1S,5S)-	7785-26-4	0.1 - 1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid measures

ROOT BEER

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

, , ,	
Eye Contact:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.
Skin Contact:	Wash with soap and water.
Inhalation:	This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure.
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.
Most important symptoms/effect	ts, acute and delayed:
Most important symptoms/effects (Acute):	No Data Available
Most important symptoms/effects (Delayed):	No Data Available
Indication of immediate medical attention and special treatment needed, if necessary:	No additional first aid information available

Suitable (and unsuitable) extingu	ishing media:
Suitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot burning liquid.
Unsuitable extinguishing media:	No Data Available
Specific hazards arising from the	chemical (e.g., nature of any hazardous combustion products):
Fire and/or Explosion Hazards:	Vapors may be ignited by sparks, flames or other sources of ignition if material is above the flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and flash back.
Hazardous Combustion Products:	Carbon Oxides
Special protective equipment and precautions for fire- fighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Use methods for the surrounding fire.

Personal precautions,	No health affects expected from the clean-up of this material if
protective equipment, and	contact can be avoided. Follow personal protective equipment
emergency procedures:	recommendations found in Section VIII of this MSDS
Methods and materials for	No special spill clean-up considerations. Collect and discard in
containment and cleaning up:	regular trash.

7. Handling and storage

Precautions for safe handling:	Mildly irritating material. Avoid unnecessary exposure.		
Conditions for safe storage, inclue	uding any incompatibilities		
Conditions for safe storage:	Store in a cool dry place. Isolate from incompatible materials.		
Materials to Avoid/Chemical	Strong oxidizing agents Strong bases		
Incompatibility:			

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

Chemical Component	ACGIH TLV-TWA	ACGIH STEL	OSHA PEL

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

|--|

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Eye Contact: Skin Contact: Inhalation: Ingestion:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention. Wash with soap and water. This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure. No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.	
Most important symptoms/effects, acute and delayed:		
Most important symptoms/effects (Acute):	No Data Available	
Most important symptoms/effects (Delayed):	No Data Available	
Indication of immediate medical attention and special treatment needed, if necessary:	No additional first aid information available	

5. Fire-fighting measures

Suitable (and unsuitable) extinguishing media:

Product Name: SMORES Product identifier: FRSMO Revision Date: 06-01-2020 Replaces:

Suitable extinguishing media: Unsuitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid. No Data Available
Specific hazards arising from the	chemical (e.g., nature of any hazardous combustion products):
Fire and/or Explosion Hazards: Hazardous Combustion Products:	Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire. Carbon Oxides
Special protective equipment and precautions for fire- fighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment.
6. Accidental release measures	
Personal precautions,	No health affects expected from the clean-up of this material if

Personal precautions,	No health anects expected norm the clean-up of this material h
protective equipment, and	contact can be avoided. Follow personal protective equipment
emergency procedures:	recommendations found in Section VIII of this MSDS
