II. HAZARD(S) IDENTIFICATION

Classification of the cho GHS Hazard Symbols:	emical in accordance with paragraph (d) of §1910.1200;
GHS Classification:	Hazardous to the aquatic environment - Acute Category 2; Hazardous to the aquatic environment - Chronic Category 2; Flammable Liquid Category 4
GHS Signal Word:	Warning
GHS Hazard	Cumbustible Liquid; Toxic to aquatic life; Toxic to aquatic life with long lasting effects.
GHS Precautions:	
Safety Precautions:	Keep away from heat/sparks/open flames/hot surfaces. – No smoking. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures (Response):	In case of fire: Use extinguishing media listed in Section 5 of the SDS to extinguish. Collect spillage.
Storage:	Store in a well-ventilated place. Keep cool.
Disposal:	Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

III. COMPOSITION/INFORMATION ON INGREDIENTS

J		Revision Date: 09-11-20
Chemical Name	CAS #	%
Cyclopenta[g]-2-benzopyran, 1,3,4,6,7,8-hexahydro-4,6,6,7,8,8- hexamethyl-	1222-05-5	10 - 30
Cyclohexanol, 2-(1,1-dimethylethyl)-, 1-acetate	88-41-5	10 - 30
1-Hexanol	111-27-3	1 - 5
Octanal, 2-(phenylmethylene)-	101-86-0	0.1 - 1
2-Hexenal, (2E)-	6728-26-3	0.1 - 1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

IV. FIRST-AID MEASURES

V. FIRST-AID MEASURES			
Inhalation:	This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure.		
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get		
Skin Contact:	immediate medical attention. Wash with soap and water.		
Ingestion:		•	
ingestion.	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.

XIII. DISPOSAL CONSIDERATIONS

Waste Description for Spent Product: Spent or discarded material may be a hazardous waste.

APPLE

Revision Date: 09-11-20 Waste Description for Empty No Data Available **Disposal Methods:** DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the sole responsibility of the waste generator. As your supplier, we have no control over the management practices or manufacturing processes of parties handling or using this material. The information presented here pertains only to the product when used as intended, according to this MSDS. For unused and

uncontaminated product, the preferred options include sending to a licensed and permitted incinerator or other thermal destruction device. Various federal, state or provincial agencies may have specific regulations concerning the transportation, handling, storage, use or disposal of this product which may not be covered in this MSDS. The user shall have to review these regulations to ensure full compliance with all applicable regulations.

Revision Date: 09-11-20

Hazardous Combustion P	roducts:	contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Use methods for the surrounding fire. Carbon Oxides
VI. ACCIDENTAL RELEASE N	/IEASURES	
contact		No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this MSDS No special spill clean-up considerations. Collect and discard in regular trash.
Handling Technical Measu	ures and Precaution	with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous.
Materials to Avoid/Chem VIII. EXPOSURE CONTROLS	-	ty: Strong oxidizing agents Chlorine
Engineering Measures:	ventilation or of operator comfo specific standar exposure below ventilation, or o recommended	hits exist for the constituents of this product. Use local exhaust ther engineering controls to minimize exposures and maintain rt. Engineering controls must be designed to meet the OSHA chemical d in 29 CFR 1910. Ventilation is required to maintain operator published exposure limits. Use process enclosures, local exhaust other engineering controls to control airborne levels below exposure limits Facilities storing or using this material should be an eyewash and safety shower. Explosion proof exhaust ventilation
Respiratory Protection:	Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Wear a NIOSH approved respirator if any exposure is possible.	
Eye Protection:	Wear chemically	y resistant safety glasses with side shields when handling this product.
Skin Protection:	Wear protective regular intervals	ntact lenses. Wear goggles and a Face shield gloves. Inspect gloves for chemical break-through and replace at s. Clean protective equipment regularly. Wash hands and other vith mild soap and water before eating, drinking, and when leaving
FOREST PINE		Page 3 of 7

Revision Date: 09-11-20

Gloves: Handling Instructions: work Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield No information available

As with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous.

II. HAZARD(S) IDENTIFICATION

Classification of the ch GHS Hazard Symbols:	emical in accordance with paragraph (d) of §1910.1200;
GHS Classification:	Skin Corrosion/Irritation Category 2; Serious Eye Damage/Eye Irritation Category 2A; Hazardous to the aquatic environment - Acute Category 3
GHS Signal Word:	Warning
GHS Hazard	Causes skin irritation.; May cause an allergic skin reaction.; Causes serious eye irritation.; Harmful to aquatic life.
GHS Precautions:	
Safety Precautions:	Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures (Response):	IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.
Disposal:	Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

IV. FIRST-AID MEASURES

Inhalation:	This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure.		
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.		
Skin Contact:	Wash with soap and water.		
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS.		
Most important symptoms and effects - acute	No Data Available		
Most important symptoms and effects - chronic	No Data Available		
Notes to Doctor:	No additional first aid information available		
V. FIRE FIGHTING MEASURES			
<u>Flammability Summary:</u> Extinguishing Media:	Combustible at elevated temperatures Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid.		
Extinguishing Media advised Fire and/or Explosion Hazar	l against: No Data Available		
Fire Fighting Methods and P	rotection: Do not enter fire area without proper protection including self-

XIII. DISPOSAL CONSIDERATION	IS				
Waste Description for Spent P Waste Description for Empty Packaging:	roduct: Spent or o No Data /		not expected to be a ha	azardous waste.	
Disposal Methods:	BODY OF Federal, S may vary compliant generator practices material. when use uncontam licensed a Various fe regulatior disposal o user shall	DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the sole responsibility of the waste generator. As your supplier, we have no control over the management practices or manufacturing processes of parties handling or using this material. The information presented here pertains only to the product when used as intended, according to this MSDS. For unused and uncontaminated product, the preferred options include sending to a licensed and permitted incinerator or other thermal destruction device. Various federal, state or provincial agencies may have specific regulations concerning the transportation, handling, storage, use or disposal of this product which may not be covered in this MSDS. The user shall have to review these regulations to ensure full compliance with all applicable regulations.

Safety Data Sheet

Revision Date: 09-11-20

Revision Date: 09-11-20 Important: While the descriptions, data and information contained herein are presented in good faith and believed to be accurate, it is provided for your guidance only. Because many factors may affect processing or application/use, we recommend that you perform an assessment to determine the suitability of the product for your particular purpose prior to use Nothing herein should be interpreted as a recommendation to infringe existing patents or violate any laws or regulations. No warranties of any kind, either expressed or implied, including fitness for a particular purpose are made regarding the product described. We assume NO responsibility for any injuries resulting from misuse or misapplication of this product or that might be sustained because of inhalation, ingestion, absorption or other contact with this product. In no case shall the descriptions, information, or data provided be considered a part of our terms and conditions of sale. Further, the descriptions, data and information furnished hereunder are given gratis. No obligation or liability for the description, data and information given are assumed. All such being given and accepted at your risk.
