2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification:

GHS Signal Word: GHS Hazard Statements:

GHS Precautionary Statements: Safety Precautions:

Serious Eye Damage/Eye Irritation Category 1; Skin Corrosion/Irritation Category 2; Hazardous to the aquatic environment - Acute Category 2; Hazardous to the aquatic environment - Chronic Category 2 Danger Causes skin irritation.; May cause an allergic skin reaction.; Causes serious eye damage.; Toxic to aquatic life..; Toxic to aquatic life with long lasting effects. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective

gloves/protective clothing/eye protection/face protection.

Product Name: LIME Product identifier: FRLIM Revision Date: 09-23-2020 Replaces:

| First Aid Measures: | IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor/ If skin irritation occurs: Get medical advice/attention. If skin irritation or rash occurs: Get medical |
|---------------------|--|
| Disposal: | advice/attention. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse. Collect spillage. Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes. |

3. Composition/information on ingredients

| Chemical Component: | CAS number and other unique identifiers | % (or range) of ingredient |
|--|--|----------------------------|
| 2,6-Octadien-1-ol, 3,7-dimethyl-, (2E)- | 106-24-1 | 3 - 7 |
| Acetic acid, phenylmethyl ester | 140-11-4 | 3 - 7 |
| 1,6-Octadien-3-ol, 3,7-dimethyl- | 78-70-6 | 1 - 5 |
| Cyclopenta[g]-2-benzopyran, 1,3,4,6,7,8-hexahydro-4,6,6,7,8,8- hexamethyl- | 1222-05-5 | 1 - 5 |
| 3-Cyclohexene-1-methanol, .alpha.,.alpha.,4-trimethyl- | 98-55-5 | 0.5 - 1.5 |
| Cyclohexene, 1-methyl-4-(1- methylethenyl)-, (R)- | 5989-27-5 | 0.5 - 1.5 |
| 2,6-Octadien-1-ol, 3,7-dimethyl-, 1- acetate, (2E)- | 105-87-3 | 0.1 - 1 |
| Ethyl methylphenylglycidate | 77-83-8 | 0.1 - 1 |
| CITRAL 95 - C-1161 | 5392-40-5 | 0.1 - 1 |
| 2-Buten-1-one, 1-(2,6,6-trimethyl-1- cyclohexen-1-yl)-, (2E)- | 23726-91-2 | 0.1 - 1 |

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Eye Contact:Flush eyes with plenty of water for at least 20 minutes retracting
eyelids often. Tilt the head to prevent chemical from transferring to
the uncontaminated eye. Get immediate medical attention.Skin Contact:Wash with soap and water. Remove contaminated clothing and
launder. Get medical attention if irritation develops or persists.LIMEPage 2 of 10

Product Name: LIME Product identifier: FRLIM Revision Date: 09-23-2020 Replaces:

| Inhalation: Ingestion: | Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical attention immediately Do not induce vomiting and seek medical attention immediately. Drink two glasses of water or milk to dilute. Provide medical care provider with this MSDS. |
|---|--|
| Most important symptoms/effects | s, acute and delayed: |
| Most important symptoms/effects (Acute): | No Data Available |
| Most important symptoms/effects (Delayed): | No Data Available |
| Indication of immediate medical attention and special treatment needed, if necessary: | No additional first aid information available |
| 5. Fire-fighting measures | |
| Suitable (and unsuitable) extingui | shing media: |
| Suitable extinguishing media: Unsuitable extinguishing media: | Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot burning liquid. No Data Available |
| ••• | chemical (e.g., nature of any hazardous combustion products): |
| Flammability Summary: | Combustible at elevated temperatures |
| Fire and/or Explosion Hazards: | Vapors may be ignited by sparks, flames or other sources of ignition if material is above the flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and flash back. |
| Hazardous Combustion Products: | Carbon Oxides, Carbon monoxide |
| Special protective equipment and precautions for fire- fighters: | Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. |

Product Name: LIME Product identifier: FRLIM Revision Date: 09-23-2020 Replaces:

| 6. Accidental release measures | | |
|--|--|--|
| Personal precautions, protective equipment, and emergency procedures: Methods and materials for containment and cleaning up: | No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this MSDS No special spill clean-up considerations. Collect and discard in regular trash. | |
| 7. Handling and storage | | |
| Precautions for safe handling: | Mildly irritating material. Avoid unnecessary exposure. As with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing Use spark-proof tools and explosion-proof equipment Ground and bond containers when transferring material "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous. | |
| Conditions for safe storage, including any incompatibilities | | |
| Conditions for safe storage: Materials to Avoid/Chemical Incompatibility: | Store in a cool dry place. Isolate from incompatible materials. Store in a cool place in original container and protect from sunlight Keep away from heat, sparks, and flame Do not store near combustible materials Keep container closed when not in use Strong oxidizing agents Acid chlorides Acid anhydrides Acids Bases Reducing agents | |

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

| Chemical Component | ACGIH TLV-TWA | ACGIH STEL | OSHA PEL |
|-----------------------------------|---|--|--|
| No Data Available | | | |
| Appropriate engineering controls: | No exposure limits exist for local exhaust ventilation of exposures and maintain of must be designed to meet 29 CFR 1910. Explosion pr Facilities storing or using t eyewash and safety showed ventilation, or other engin | or other engineering contra- perator comfort. Enginee t the OSHA chemical speci oof exhaust ventilation sh this material should be equer. below recommended exposure limits

Individual protection measures, such as personal protective equipment:

| Respiratory Protection: | Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Respiratory protection may be required in addition to ventilation depending upon conditions of use. |
|-----------------------------|---|
| Eye Protection: | Wear chemically resistant safety glasses with side shields when handling this product. Do not wear contact lenses. Wear goggles and a Face shield |
| Skin Protection: | Wear protective gloves. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield |
| Gloves: | No information available |
| Respiratory Protection: | Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Respiratory protection may be required in addition to ventilation depending upon conditions of use. |
| Other Protective Equipment: | Wear goggles and a Face shield Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield |
| General Hygiene Conditions: | As with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing Use spark-proof tools and explosion-proof equipment Ground and bond containers when transferring material "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous. |

9. Physical and chemical properties

| Appearance (physical state):LiquidColor:ClearOdor:Comparable to StandardOdor threshold:Not determined |
|---|
| Odor: Comparable to Standard |
| • |
| Odor threshold: Not determined |
| |
| pH: Not Available |
| Initial Boiling Point and Boiling Range (°C): No Data Available |
| Flash Point : 200 º F |
| Evaporation Rate: Not Available |
| Flammability (solid, gas): No Data Available |
| Upper/lower flammability or explosive limits: |
| Upper Flammable/Explosive Limit: Not Available |
| Lower Flammable/Explosive Limit: Not Available |
| Vapor Density: > 1 |
| Relative Density: 0.9199 |
| Solubility(ies): Soluble in water- No |
| Auto-ignition Temperature (°C): 259 ° C |
| Decomposition Temperature:: No Data Available |
| Viscosity: No Data Available |
| Volatiles, % by weight 9.44 |
| Volatile Organic Chemicals No Data Available |
| Bulk Density 7.677 |

10. Stability and reactivity

| Reactivity: Chemical stability: Possibility of hazardous reactions: | No Data Available Stable under normal conditions. No Data Available |
|--|---|
| Conditions to avoid (e.g., static discharge, shock, or vibration): | Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition. Heat flame sparks Extremes of temperature direct sunlight Direct sources of heat |
| Incompatible materials: | Strong oxidizing agents Acid chlorides Acid anhydrides Acids Bases Reducing agents |
| Hazardous decomposition products: | Carbon Oxides Carbon dioxide Carbon monoxide |

11. Toxicological information

Product Name: LIME Product identifier: FRLIM Revision Date: 09-23-2020 Replaces:

| toxicological characteristics: | |
| Target Organs Potentially | No Data Available |
| Affected by Exposure: | |
| Chemical Interactions That | None Known |
| Change Toxicity: | |

Delayed and immediate effects and also chronic effects from short- and long-term exposure:

Immediate (Acute) Health Effects by Route of Exposure:

| Inhalation Irritation: | Can cause respiratory irritation. |
|------------------------|---|
| Skin Contact: | Can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause permanent damage. May cause sensitization. |
| : | Minimal hazard in normal industrial use. May cause gastrointestinal discomfort |
| Eye Contact: | Can cause moderate irritation, tearing and reddening, but not likely to permanently injure eye tissue. |
| Ingestion Irritation: | Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea, vomiting and diarrhea. |
| Ingestion Toxicity: | Harmful if swallowed. |

Long-Term (Chronic) Health Effects:

| Carcinogenicity: | None of the substances have been shown to cause cancer in long term animal studies. Not a carcinogen according to NTP, IARC, or OSHA. |
|-------------------------|--|
| Reproductive and | No data available to indicate product or any components present at greater than |
| Developmental Toxicity: | 0.1% may cause birth defects. |
| Mutagenicity: | No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic. |
| Inhalation: | Upon prolonged and/or repeated exposure, can cause moderate respiratory irritation, dizziness, weakness, fatigue, nausea and headache. |
| Skin Contact: | Upon prolonged or repeated contact, can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause permanent damage. |
| Skin Absorption: | Upon prolonged or repeated exposure, minimal hazard in normal industrial use. May cause gastrointestinal discomfort. |

| Bioaccumulative potential: | No Data Available |
| Mobility in soil: | No Data Available |
| Other adverse effects (such as | No Data Available |
| hazardous to the ozone layer): | |

13. Disposal considerations

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging

| Description of waste residues: | Spent or discarded material is not expected to be a hazardous waste. |
|--|--|
| Safe Handling of Waste: Waste treatment methods (including packaging): | No Data Available DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the sole responsibility of the waste generator. As your supplier, we have no control over the management practices or manufacturing processes of parties handling or using this material. The information presented here pertains only to the product when used as intended, according to this MSDS. For unused and uncontaminated product, the preferred options include sending to a licensed and permitted incinerator or other thermal destruction device. Various federal, state or provincial |
| | |

| | agencies may have specific regulations concerning the transportation, handling, storage, use or disposal of this product which may not be covered in this MSDS. The user shall have to review these regulations to ensure full compliance with all applicable regulations. | | | |
